

GRASSROOTS WORKBOOK & PRACTICE PLANS

Learn to Train practice plan Preferred training model – The Station concept

The activities provided illustrate how stations can be used during Grassroots practices. During the practice players will spend an allotted time at each station having fun, developing specific skills and qualities before moving onto the next station. By using station work we create an environment where players are continually motivated and that they are continually challenged.

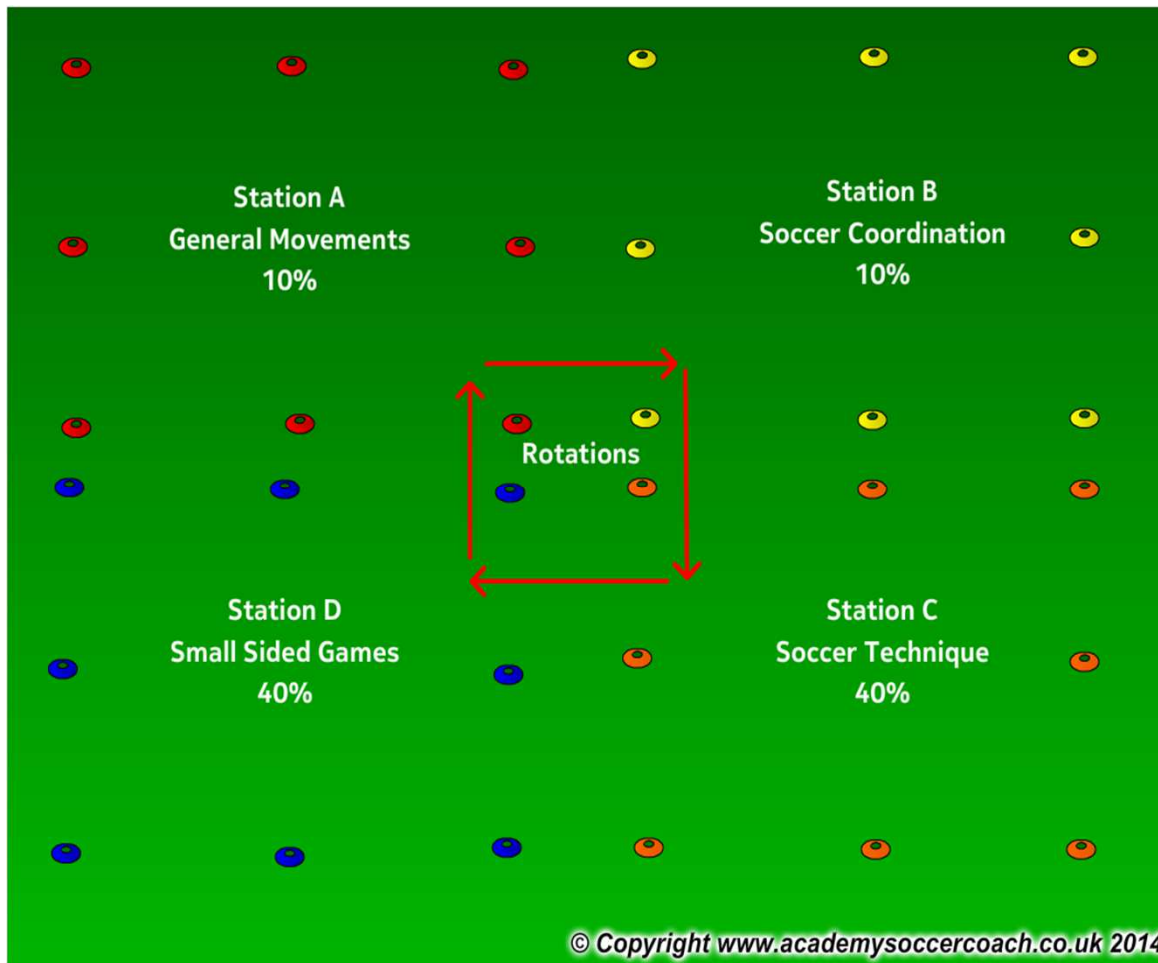

In the following activities players will travel through 4 stations. In these examples one station focuses on general movements, one station on soccer coordination with the ball, one station on soccer technique and the final station focuses on a small sided soccer game 3v3, 4v4 and 5v5

All sessions take a holistic approach to developing our youth. Each game and activity will focus on 4 main areas of the child's development; these include social/emotional, physical, physiological and also technical

Total Practice time 45-70 minutes as per the OSA Recreational and Development Matrix

If working with a larger group organize players into groups of 10-12. Each station has a coach who will lead that specific station for the session. Players rotate every 12-15 minutes with a 2 minute break in between each station to have a water break and move to the next station. If working with a smaller group you can still have the 4 stations and players will move together through all 4 stations until all are complete.
